

★Being a column in which the publisher just "blows off the steam".

By June Jones

A WHOLE WEEK spent at the Lazy J. Ranch by the publishers of The Herald gave us opportunity to catch up on our sleeping, eating, fishing and swimming for awhile. Of course, the families were along, too, and they likewise "caught up."

We brought back no big fish stories—but we caught a few bass and blue catfish. We killed some quail, snakes and lots of time. We even drove the tractor on the place some, doing odd jobs around the place. To cap the tractor driving, the first time we went out to try to start the machine that had not been operated for several weeks, we got a buzz.

That is, we located a big nest of red wasps nestled around the inside of the radiator hood. But we proved our 10-second dash ability and suffered little damage.

Boy, how those barbecued hamburgers and fried chicken tasted out under those big spreading liveoak trees in the Lazy J backyard! Nothing like it.

ADVERTISING by a major grocery in Hamlin, which has missed only three issues during the past seven years carrying an ad, has recently written the following letter to Your Home Town Paper. The letter is from the Dallas division headquarters of Safeway Stores:

I would like to take this opportunity to express Safeway's appreciation for the wonderful job your newspaper accomplished for us in our recent colossal beef sale.

For your information, our sales during this short three-day sale were 300 per cent of normal sales for an entire week.

We credit a large portion of this increase to the circulation of your newspaper which was our primary media for informing the consumers of Texas about this sale.

The results of this sale have certainly proven to us that without newspaper coverage it would not have been possible.

Yours very truly—Earl Cliff, advertising manager for Safeway Stores.

ONE OF THE compensations for having a cheery disposition is its effect on those about you. Jack Crawford puts it in these well selected words:

When a bit of sunshine hits ye
After passing of a cloud,
When a bit of laughter gets ye
And ye're spine is feelin' proud,
Don't forget to up and fling it
At the soul that's feelin' blue,
For the minute that ye sling it
It will boomerang to you!

QUOTING DOC ANKLAM

has almost become a habit with this column. However, we offer no apologies, because his stuff is a bit unusual. He writes in a little trade publication coming to our desk from a paper manufacturing concern. Again we quote from Doc...

There's nothing wrong in wanting to get ahead in life, but unlike driving, it's not good form to blow your horn when passing the fella in front.

A woman who makes a match for her daughter usually intends to referee it as well.

Most men are pessimists when they are making up their minds to buy—but they like to buy from an optimist.

Ti Tolliver complains his wife has a terrible memory—she remembers everything.

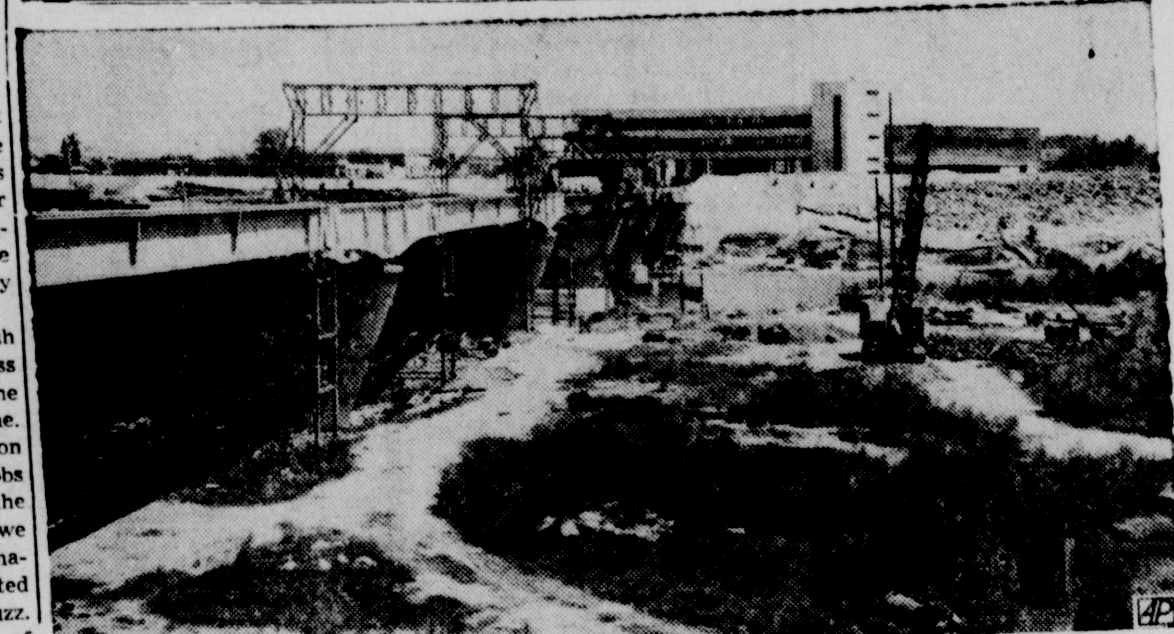

Married men can't understand why all bachelors aren't rich.

SPREADING the spirit of happiness and good-will is one of the finest traits anyone can have. Captain Jack Crawford has made the sentiment rhyme like this...

When a bit of sunshine hits ye
After passing of a cloud,
When a bit of laughter gets ye
And ye're spine is feelin' proud,
Don't forget to up and fling it
At the soul that's feelin' blue,
For the minute that ye sling it
It will boomerang to you!

Absentee Voting Begins on One of Smallest Area Ballots

Referendum Vote On Three Subjects Also Scheduled

Voters of Jones County will have one of the shortest primary election ballots in several years, as it was revealed last week-end by Jack Edwards, county Democratic committee chairman, as ballots were completed, and absentee voting began Monday.

Apparently little interest is being shown in any portion of the election as far as The Herald has been able to discern. Probably a little fire is being kindled in the governor's race, but even Ralph Yarborough's and W. Lee O'Daniel's tirades about corruption in Austin is not "cutting much mustard" this year.

Five state offices have no competition; three district offices have only one candidate; and three county office candidates will have no opponent. This trend is likewise carried out in the precinct offices, where only four of the offices show competition.

For the first time in many years the primary ballots will have a referendum vote on three very moot questions—mixing white and colored children in public schools; inter-marriage between negroes and whites; and interposition.

Date of the primary election, of course, is Saturday, July 28.

Mr. and Mrs. W. L. Fletcher Sr. Will Celebrate Sixty-Fifth Anniversary Here

Descendants of Mr. and Mrs. W. L. Fletcher Sr., long time residents of the Hamlin community, will observe a family reunion Sunday, July 15, at the oil mill guest house in Hamlin to celebrate the sixty-fifth wedding anniversary of the couple.

Mr. and Mrs. Fletcher are natives of Georgia, and attended school together at Bowden, Carroll County, Georgia. They were married in the home of her parents early Sunday morning, July 19, 1891. They came to Texas a short time thereafter and lived for a time at Hubbard. Later they moved to a farm near the old town of Armor (now Coolidge), where they lived until moving to the place where they now live. Coming to this county in 1908, they have been living on the same farm, where they reared a big family.

Fletcher has served his community and county in various ways. He was appointed county commissioner in 1909 to fill the unexpired term of J. D. McClaren.

Area Baptists Attend Quarterly Session Here

Representatives from churches of the North Colorado Baptist Association were in Hamlin for the quarterly session of the group, convening with the Sunset Baptist Church last Friday.

Supper was served to attendees by the host church, of which Rev. R. B. Hiner is pastor.

Donkey Baseball Tilt Slated Friday Night

Members of the Hamlin Volunteer Fire Department and young baseball players of the community will probably be secondary performers on the diamond Friday night at 8:00 o'clock in a baseball game that will be played on donkeys.

The game, being touted as a fun-filled, often spilled and hilarious athletic tussle will be played at the Piper Stadium baseball diamond under the lights. The public is invited to attend.

Proceeds from admission at the gate will go to the fire department's community fund, leaders of the department announce.

Methodist Young Folk Attending Assembly

Numbers of Hamlin area young people are in Abilene this week attending the annual youth assembly at McMurtry College of the Northwest Texas Conference. The assembly opened Monday and will continue through Saturday of this week.

Theme for the assembly is "For the Facing of This Hour." Assembly hymn is "God of Grace and God of Glory." Outstanding pastors, laymen and professors are on the program.

Rev. Darris L. Egger, pastor of Hamlin First Methodist Church, is dean of men for the assembly.

Frederick, Oklahoma, To Lead in Revival at Dovie Union Church

Rev. James A. Gray of Frederick, Oklahoma, will be the evangelist in a series of revival services beginning Friday night at the Dovie church, five miles east of Hamlin on the Stamford highway, it is announced by Rev. S. J. King, pastor.

"This is an old time union community so free to come and worship God with us," declares Rev. King. "Meet your neighbors and friends at this friendly little church."

Services will be conducted each evening at 8:00 o'clock, and they will continue through Sunday, July 22.

Rev. King also announces Sunday School Sunday morning at 9:45, preaching at 11:00 o'clock and singing Sunday afternoon at 2:00 o'clock.

He was then re-elected for the succeeding term, and it was during his tenure that the present courthouse was erected at Anson.

Fletcher also served several years as a member of the county school board, and was active in the first movement to consolidate rural schools. He also played a major role in organizing the Farmers Cooperative Gin at Hamlin and also in organizing the REA in this area.

Both Mr. and Mrs. Fletcher are long time members of the Methodist Church. Mrs. Fletcher was active in the Eastern Star for many years, and Fletcher has been a member of the Masonic Lodge for 50 years. He also was an active member of the Woodmen of the World in its day.

Mr. Fletcher was 87 years of age on January 12, and Mrs. Fletcher will be 87 on November 17.

Children of the pioneers are Mrs. B. H. Gardner, W. L. Fletcher Jr., W. W. Fletcher and L. J. Fletcher, all of Hamlin; Mrs. C. F. Murray of Pasadena, Mrs. J. H. Banett of Littlefield, and Mrs. Neal Chastain of Spur.

One Completion, One Wildcat Hold Area Oil Spotlight

Completion of small well south of Hamlin and staking of a wildcat nine miles east of Hamlin constitute the oil news of the Hamlin section of the past several days.

Miami Operating Company Inc. of Abilene No. 1 Alma Castleberry has been completed as a Cook Snad discovery in Jones County, six miles south of Hamlin, and about a mile west of Neinda. Location is in Subdivision 3, J. Rodriguez Survey 357.

Daily potential was 11.85 barrels of 42-gravity oil, pumping from 50 perforations at 3,055-3,065 feet. Total depth was 5,636 feet with casing set at 4,793.

Nine miles east of Hamlin, the Texas Pacific Coal & Oil Company has staked its No. 1 J. M. Heidenheimer as a 3,300-foot rotary wildcat. Site is 330 feet from the south and 990 feet from the west lines of Section 93, B. B. & C. Railway Company Survey.

Cotton Farmers See Some Relief with New Provisions of Soil Bank Program

Cotton farmers of the Hamlin section, many of whom are faced with complete failure this year due to the drought, saw considerable relief this week from utter revenue failures by compliance with the new soil bank program that is being implemented.

Ruling that payments may be earned for under-planting cotton because of adverse weather conditions relieved earlier fears that they might not be able to qualify simply because they had been unable to plant because of drought or because prospects for complete failure of the crops that were planted.

Soil bank acreage reserve agreements are now available for signature in county Agricultural Stabilization Committee offices.

Anson, R. G. Schrauner, chairman of the state ASC committee, has announced. Farmers may obtain full information there on how they may participate in the acreage

reserve part of the soil bank this year.

"The acreage reserve is the first part of the program to get into operation for 1956," the chairman explained. "While farmers may sign an agreement any time before July 20, those who want to participate in the program should call at the office soon. Ask about the last date for plowing or discing a cotton crop in order to reduce the acreage below the farm allotment."

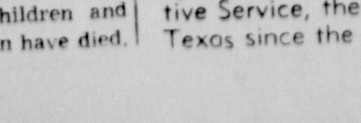

Besides permitting farmers to incorporate into the soil, by plowing or discing an acreage of cotton within the allotment, the 1956 acreage reserve contains several other special provisions which enable farmers to take part in the program this year.

Thus, a farmer may earn a payment for under-planting cotton if he can certify that he underplanted either in anticipation of complying with the program, or because of adverse weather conditions and if he designates an equivalent acreage in the acreage reserve; or the farmer may comply with his farm allotment for cotton and earn a payment if he does not harvest an acreage of the crop because of destruction by natural causes. Land placed in the acreage reserve must not be cropped, cut for hay or grazed during 1956. Noxious weeds must also be controlled.

Payments on cotton acreage designated for participation in the acreage reserve will be based on 15 cents per pound on either the normal or appraised yield—depending on how the land qualifies under the program, but not less than \$6 per acre for destruction due to natural causes or for plowing or cutting the cotton crop.

In order to participate in the acreage reserve of the soil bank a farmer must generally comply with all allotments established for his farm.

Balancing Votes In Two Boxes Will Be Result of Move

Change of from 50 to 75 votes from the West Hamlin box to the East Hamlin box will be effected in the altering of boundary lines of the two voting precincts, authorized this week by the Jones County Commissioners Court, according to County Judge H. G. (Pete) Andrews.

The change in voting will be effective on August 1, after the primary election, Andrews said.

The change is being made, Andrews explains, to equalize the number of votes being cast in each voting box. Hamlin's population has grown to the west, and the West Hamlin box has gotten larger than the East Hamlin box.

The altering of the boundaries of the two voting precincts has been under consideration for several months, following the urging of voting officials in each box that the boxes be more nearly balanced as far as the voting strength is concerned.

Publication of the official notice of the change, giving the technical description of the metes and bounds is being made on an inside page of today's Herald, as prepared by the Commissioners Court.

Probably for a more understandable description of the boundaries, it is simply this: People living south of the Santa Fe Railway and east of Central Avenue will after August 1 vote in the East Hamlin box. Those living west north of the Santa Fe line west of Central Avenue and North of the Santa Fe railway will vote in the West Hamlin box.

The east-west division line on Central Avenue runs north to the Stone-wall County line.

Heretofore, residents south of the Santa Fe and west of Highway 83 voted in the West Hamlin box as well as those living north of the Katy railway and west of the highway.

CURTAILMENT OF TRAIN MAIL SERVICE PROPOSED

Some concern continues to be felt by a very few citizens of this area for the mail service to the section. No doubt this lack of interest is due to the fact that many people are not aware of the seriousness of the situation.

Did you know the mail service by train into Hamlin and many other area localities is the next one slated for extinction? Did you know this division of the postal transportation service (formerly railway mail service) has been cut more than any other division in the entire United States?

The postal transportation officials have inspected this run from Altus, Oklahoma, to San Angelo, and it is their custom to resurvey any line they contemplate cutting. After its original inspection, now they have resurveyed this line and, while doing so, informed the various postmasters along the route that if this service were discontinued and the mail were hauled by contracted trucks, "they would receive as good or better service."

However, informed persons familiar with the handling of the mail for this region declare such a statement is not true.

It is impossible to make some of the connections the train makes, with en route distribution, as the truck must go to its terminal before the mail can be worked. And if it did leave the initial point of its run in time

to make close connections, it would require such an early start that some of the mail ordinarily picked up by the train would not even get out of your local post office on that day.

The schedule of these trains which officials propose to remove from service in our locality is such that most of the towns in North and Central Texas now receive the highest type of mail service—that is, a late evening pickup and an early morning delivery.

Pretext for this cut, under the guise of economy, originates from the same source that finds plenty of money to fly three-cent mail between the larger cities. It is for that reason this committee believes your service should not be made to suffer in order to foot the bill for someone else's better service only because of their more fortunate location with respect to air fields.

The plans to remove this important service in your locality has advanced to such an extent that only you, the public, concerned in this matter can save the service. But it will cost you a two-cent postal card or the price of a letter to your congressman or the Post Office Department, Washington, D. C. Or, better still, write them both and let them know you feel your three-cent stamp should buy as much as most other Americans get for theirs.

Pedestrians Hazards, Too

"Many pedestrians on our streets today are a constant hazard to themselves and others by their reckless disregard of traffic laws!" This view was expressed by E. C. McFadden of Dallas, president of the Texas Safety Association, Inc., in his discussion of the know-and-obey-traffic-laws program which the Texas Safety Association and the Department of Public Safety are conducting in cooperation with the National Safety Council.

"How many of us can plead 'Not Guilty' to sneaking across a street on a red light, or jaywalking, or to doing any of the other extremely hazardous things which spell disaster to so many pedestrians in traffic each year?" McFadden asked.

Emphasizing that traffic laws were made for the protection of both pedestrian and motorist, McFadden said that statistics indicated that many traffic accidents are caused by reckless pedestrian walking habits and an indifference to the necessity of obeying traffic laws at all times.

"Traffic signals represent the expert thinking of engineers and safety authorities, and are used for the protection of both motorist and pedestrian," McFadden said.

"When we disobey traffic laws, whether motorist or pedestrian, we're cheating ourselves as well as others," he declared. "It might be fun to fool yourself at solitaire—but don't try the same thing in modern traffic. It might be fatal!"

Share the Road

Have you ever stopped for a moment and thought of the fellow next to you? That man might be the one who works next to you or your next door neighbor, or he could be the fellow who sits next to you at your church or your service club luncheon. It is possible that the fellow next to you is a friend who would like to share with you the joys of living; one who would like to work with you and in general share with you the roads of every-day living.

Learn to know your neighbor and develop that friendship and fellowship which can be such a useful and priceless possession in the busy world of today.

Let's stop and think, then really meet that man—and chances are he, too, longs to share the road.

Civic Responsibility

All of us have civic responsibilities whether we recognize them and discharge them or not.

Take our average service club, like the Rotary or Lions Club, for example: They are not merely dues-collecting organizations. We derive no great benefit from the payment of dues, and we are not interested in bringing in new members just to be button-wearers.

A service club has room only for men who are sufficiently interested in the organization to carry their part of the club's work. When a man is chosen to become a service club member he should regard the choice as an honor only if he is willing to accept the responsibility that goes with it.

Editorial of the Week

"PEPPER AND SALT" SCHOOLS

Alabama is trying a "pepper and salt" plan of school enrollment as a solution to the problem of desegregation. It appears to have considerable merit. Under this plan, there would be three kinds of schools: (1) white schools for children who want them; (2) colored school for children who want them; and (3) mixed schools—"the pepper and salt" kind.

There are some white parents who are not seriously concerned about their children going to schools with negro children. And there is probably an equally small number of colored parents who prefer mixed schools. "Pepper and salt" schools with both white and colored pupils would be available to those who want them. But the great majority of both white and colored children would continue to attend all-white and all-colored schools, as at present.

The great merit of this plan is that it does not separate school children by state action on a basis of race. It leaves the question in the hands of parents, who know better what is good for their children than the Supreme Court of the United States.

Unfortunately, the plan does not seem to be well adapted to small town and rural areas, where it would not be practicable to provide three types of schools. But the mere suggestion of the plan does indicate that many minds are at work attempting to solve this problem on a basis of fairness and a decent regard for the rights and privileges of both races.—The Progressive Farmer.

Farmers of Fisher County Using FHA For Needed Funds

Farmers in Fisher County obtained loans totaling \$328,205 through the Farmers Home Administration during the year ending June 30, 1956, John D. Wolf Jr., the agency's county supervisor, said this week.

Repayments on loans outstanding during the year totaled \$495,993.94.

The agency has advanced credit to buy feed, seed, fertilizer, equipment, livestock and other farm operating items needed to place farms on an efficient operating basis, and to buy and improve family type farms. It also advanced funds for soil and water conservation purposes and to meet drought emergency needs.

The local Farmers Home Administration committee must approve each loan application before funds can be advanced. The committee determines all loan applicants' eligibility and certifies the value of farms to be purchased or improved if those actions are involved. It also makes recommendations on loan approvals and servicing actions.

Applicants are approved as eligible only if other lenders cannot adequately supply their credit needs and only if prospects are favorable for their being able to improve their farming and repay their loans.

Families are expected to refinance their loans with other lenders as soon as they are in position to do so.

The Campaign Is Now Underway

Between now and July 28th, there is going to be a lot of conversation, speech making, and just plain political hump. Some people are going to be talking to you and when they get through you won't know anymore than before they started. There will be a lot of handshaking. It is pretty obvious that at election time handshaking is done for only one purpose—to get your vote. There will be much talk about team play, worthiness of the candidate, sneers, etc. Just remember this, friends. There is only one real team and that is the people of the 17th Congressional District. You are going to choose your own captain this year—a real honest-down-to-earth spokesman for the people of the district.

So many representatives first go to Washington with good intentions. After a year or two in office they forget why the people sent them there. The boys in the back room get hold of them and make politicians out of them, instead of statesmen. They listen to intellectual do-gooders, statisticians, "one worlders," and become so indoctrinated that all of the common folk back home are no longer represented. The power of the Federal government and the politicians are making the common folk into a pawn to be used in the collective bargaining of trying to reach a one world goal supported by American blood and American money, all at the expense of Mr. and Mrs. Average American with absolutely no contribution from the rest of the world.

Who are my campaign managers? All of us. You the voters will support me and I will, in turn, support you on the floor of Congress. All of this fancy speech making and political gabflog that you hear between now and July 28th may be just so much conversation. Remember that! And rest assured that I will carry the sentiments of all of us, the people, of the 17th Congressional District to Washington.

We have done a lot of talking and complaining in the barber shop, in the cotton fields, in the peanut patch, on the cattle ranch, in the living room, in the drug store, in the grocery store, in small groups, and elsewhere. Now I stand before you ready to try to do something. We will have to put up or shut up at the polls on July 28th.

We can be an inspiration. We can set an example for all the common folk throughout our country by voting in such overwhelming majority at the July 28th Primary that other districts throughout the country, in near future elections will have the courage, the bravery, and spirit of our founding fathers to adopt similar platforms and bring dignity, common sense, and spiritual greatness back into our Federal government. Only when this is achieved will our foreign friends begin to respect us and perhaps make some worthwhile contributions that will be a step in the direction of the brotherhood of man.

Our voice in the wilderness springing from the 17th Congressional District of Texas can and will be heard. Our team can play a winning game, and adopting our platform in such overwhelming majority will bring respect and notice from our fellow Americans. We must start somewhere and we can start right here, now, in our own district.

It is obvious that I cannot shake each of your hands and talk to each of you. If I spent a half hour with each of you, I would spend approximately four years day and night without sleeping or eating. But I will get my message across to all of you somehow during this campaign. My heart and soul are in this and you, my friends, are one big team with me. We are all in this together and we will stick together. This campaign will be the most unusual in the history of the country, because we the people are going to do our own thinking this time and our own voting and our own campaigning. I am gratified for the hundreds of telephone calls and letters and offers of assistance from all of you, from the working man to many of the established democratic leaders in the district. I will see all of you that I can and remember I am always ready to consider your valued advice and recommendations. This is your campaign and your government. This is your opportunity to speak out.

God bless each and everyone of you.

Most Classes of Cattle and Calves Move at Setady Prices at Fort Worth Monday

Most classes of cattle and calves were sold in a fairly active trade at steady prices at Fort Worth, says Ted Coupley, special market reporter for The Herald in his weekly release. He continues:

Shippers, independent packers and order buyers were aggressive buyers from the outset, and despite lower offers from some of the major packers, the early trade was steady. However later in the day weakness prevailed on cows and averages for the day on slaughter cows were steady to 50 cents lower, with fat cows showing the most weakness.

Stocker and feeder trade was fairly active and generally steady with last week's close, and again there was more activity on the higher quality kinds and on fleshy feeder steers and yearlings. Some fleshy feeders were stronger in spots.

Hogs scored advances of 25 to 75 cents, and choice butcher hogs topped at \$16.25 to \$16.75, mostly \$16.50 to \$16.75. Less desirable weights and grades moved at \$12 to \$16. Sows cashed at \$10 to

\$14, or steady to 50 cents higher than at the close last week.

Trade was active and prices were fully steady to unevenly higher on sheep and lambs. Slaughter lambs and yearlings drew strong to \$1 higher price in spots. Spring lambs topped at \$22, and yearlings topped at \$17. Feeder lambs sold from \$15 down.

Good and choice slaughter steer and yearlings cashed at \$16 to \$21.50, and common and medium offerings cleared at \$10 to \$15.50. Slaughter heifers sold from \$20 downward, some at that figure sorted off steer yearlings that brought \$21.50.

Fat cows cleared at \$9.50 to \$12, and canners and cutters drew \$6.50 to \$9.50. Bulls sold for \$10 to \$13.50, a few outside that range.

Good and choice slaughter calves cashed at \$14 to \$17, a few heavies above that range. Common and medium butcher calves sold for \$10 to \$13.50, and rannies sold from \$8 to \$10.

Good and choice stocker steer calves cleared at \$15.50 to \$17.50, and stocker and feeder steers and steer yearlings of good grades sold mostly from \$15 to \$16.50, a few to \$17. Plain and common stockers sold from \$10 to \$13.

Good and choice slaughter spring lambs ranged from \$17 to \$22, and cull, common and medium springers sold from \$10 to \$16. Stocker and feeder lambs sold from \$12 to \$15.

Good slaughter yearlings sold from \$15 to \$16, and some choice yearlings reached \$17. Cull to medium yearling muttons sold from \$8 to \$14. Slaughter ewes cashed at \$4.50 to \$5. Old bucks sold around \$4.

DAN KRALIS

Candidate for
United States Congress
United States Representative
17th Congressional Dist.
Democratic Ticket

WHAT CANDIDATE WILL WIN?

Political candidates win for the following reasons:

1. The winning candidate has the better platform.
2. The losing candidate has been in office too long with too little accomplished for the people he is supposed to be representing, or he may have never been in office but also does not have a winning platform.

There is one politicians' tactic that all the people should know about. This method of campaigning has been often used by desperate politicians who cannot win by any other method. These politicians have little to offer in the way of a platform and their only recourse is to try to draw voter's attention away from the opposing candidate's platform by attempting to create a duel between personalities. Their weapons are character assassination, prejudices, inferences, and falsely creating a completely untrue or misleading picture of what the opposing candidate has said or done in the past or now.

In the heat of such animosities, both candidates soon forget why they are running for public office and their only concern is to tear each other's heart out, to stir up confusion, cause hard feelings, and in general, bring into disgrace this God given right which allows free Americans to run for public office.

I do not believe my opponent and I want to conduct a "mud slinging" character assassination campaign. We have all we can do to state our viewpoints and I for one will have all I can do to stick to my platform and give the people of the 17th Congressional District a solid, firm platform. All the people will know exactly where I stand on any issue.

This campaign can be refreshing, enlightening, and conducted in the atmosphere of true statesmanship instead of "political skull luggery." We can make this a clean campaign with the issues clear cut. The people of the 17th Congressional District are interested in only one thing. What will the candidate try to accomplish in Washington?

SURE WAY OUT.

Two hunters had been out in the woods for several hours and one of them had been growing uneasy. Finally panic overcame him. "We're lost!" he cried to his companion. "What on earth are we going to do?"

"Take it easy," said his composed friend. "Shoot an extra deer and the game warden will be here in a minute and a half."

Refund of Federal Gas Tax to Farmers Now Being Tabbed

Hamlin area farmers may obtain a refund of the federal excise tax on gasoline which is used for farming purposes by filing a claim at any time after June 30 and before October 1, 1956. A. E. Fogle Jr., administrative officer of the Abilene office of the Internal Revenue Service, announced in a release to The Herald.

Claims for the present federal tax rate of two cents a gallon are to be made on Form 2240 and should be filed with the U. S. district director of internal revenue for the farmer's district. Forms are available at Abilene at the internal revenue office, from county agricultural agents, and at some banks and post offices.

Initial refund payments will concern gasoline purchased and used during the first six months of 1956, according to Fogle. Refunds will be limited to federal tax on gasoline which is used by a farmer for farming purposes, in carrying on a trade or business on a farm located in the USA. A farmer may also request a refund of the tax on any gasoline which is used on his farm by a

custom operator or a neighbor in connection with cultivating the soil or raising or harvesting any agricultural or horticultural commodity.

Fogle cautions, "Farmers expecting to file claims should keep ample records to enable internal revenue to verify accuracy of the amount claimed."

Yes! Research has proved these medicines thoroughly modern in action... has shown you where to look for relief from those distressing, nervous, "out of sorts" feelings of mid-life "change!"

So... get Lydia E. Pinkham's Vegetable Compound—or new, improved tablets with added iron! (Wonderful, too, for the functional pains of menstrual periods.)

It acts through a woman's sympathetic nervous system to relieve distress of those awful "hot waves!"

I AM THE CHURCH

They pause in the road of life and gaze at ME. And their feelings are a mixture of longing and hesitation. What shall I say to their longing... to their hesitation?

I am the Church. I come not from man but from God. Man raised my steeple to the sky, a prayer of steel. But God opened my doors to the reverent. He lifted the Cross of His Son to beckon men. He engraved His message on the hearts of my people.

I am the Church. They long for me because I teach truth and awaken faith... because hope and courage and strength and happiness are promises I make to those who heed me.

I am the Church. They hesitate as they approach me. For they say, "How can we be able—your Promises certain?"

I am the Church. That is why men can be sure! I come not from man but from God. Men may toy with the truth, but not God. Men may break faith, but not God. Men may forget their promises, but not God.

I am the Church. I belong to you... to your family... to your nation and your world. Do you belong to me?

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Duncan Reviews Highlights of Lions Clubs Convention

President Edgar Duncan gave some highlights of his recent attendance at the Lions International convention at Miami, Florida, as the program feature at the Tuesday noon luncheon of Hamlin Lions Club at the oil mill guest house.

Duncan took his family to the annual session, and they drove through several Southern states and visited along the way.

Duncan reported that, as usual,

the Texas delegation was the biggest group attending the convention, and armed with big pistols shooting blank cartridges, they made themselves known. Probably the highlight of the meeting, Duncan said, was the two-hour parade. More than 45,600 Lions and their families attended the convention.

In business sessions of the convention it was reported that more

than 1,000 new Lions Clubs were organized during the past year. There are now clubs in 79 countries, with membership standing at 542,828, Duncan reported.

Duncan attended a presidents' dinner which was attended by 1,200 club heads.

Guests at the Tuesday luncheon included Captain Burleson, Frank Bayouth, Jerry Wallace and Carl Murrell.

Your Home Business Firms are THE HIGHEST BIDDERS for Your Shopping Dollar

Here
are the facts
to prove
it...

Actually . . . no matter where you live . . . nobody . . . and that means NOBODY . . . can give you more for your dollar than your own home business firms.

Let's look at the reason for this advantageous . . . to you . . . situation:

ANY MERCHANT . . . anywhere . . . is ordinarily going to sell goods for some more than he pays for them.

ON AN AVERAGE . . . when you spend a dollar in any retail store . . . here or anywhere else . . . about 70 cents of it pays for GOODS, and about 30 cents goes for rent, taxes, donations, hired help, etc., and a few cents (the national average is about 5 cents) pays the proprietor for his work, and for his investment in goods and equipment, credit losses, etc.

NOW . . . when you spend your dollar at home, you get the same 70 cents worth of merchandise that you would get for it anywhere else.

AND THE OTHER 30 CENTS stays here too, to help you pay for schools, churches, roads and streets; to vitalize the community so your property . . . or your job . . . is worth more; to keep more people here to share civic work and expense, and to serve YOU when you sometimes direly need their knowledge and their skills.

ONLY when you buy in YOUR OWN HOME community do you get back most of this 30-cent retail handling charge . . . and often a great deal more, as your job or your business prospers and your social life broadens with the growth of the entire community.

*It Pays to Buy
where You Live*

Of all the business establishments in the world — only those in Hamlin are sincerely interested in the future of Hamlin and in the future of YOU who live here . . .

★ Being a column in which the publisher just "blows off the steam".

By June Jones

A WHOLE WEEK spent at the Lazy J. Ranch by the publishers of The Herald gave us opportunity to catch up on our sleeping, eating, fishing and swimming for awhile. Of course, the families were along, too, and they likewise "caught up."

We brought back no big fish stories—but we caught a few bass and blue catfish. We killed some quail, snakes and lots of time. We even drove the tractor on the place some, doing odd jobs around the place. To cap the tractor driving, the first time we went out to try to start the machine that had not been operated for several weeks, we got a buzz. That is, we located a big nest of wasps nestled around the inside of the radiator hood. But we proved our 10-second dash ability and suffered little damage.

Boy, how those barbecued hamburgers and fried chicken tasted out under those big spreading liveoak trees in the Lazy J backyard! Nothing like it.

★ THEN THERE WAS the mental, troubled dog who refused to go to a psychiatrist. "You know quite well," the dog explained, "I'm not allowed on a couch."

★ ADVERTISING by a major grocery in Hamlin, which has missed only three issues during the past seven years carrying an ad, has recently written the following letter to Your Home Town Paper. The letter is from the Dallas division headquarters of Safeway Stores:

I would like to take this opportunity to express Safeway's appreciation for the wonderful job your newspaper accomplished for us in our recent colossal beef sale. For your information, our sales during this short three-day sale were 300 per cent of normal sales for an entire week.

We credit a large portion of this increase to the circulation of your newspaper which was our primary media for informing the consumers of Texas about this sale.

The results of this sale have certainly proven to us that without newspaper coverage it would not have been possible.

Yours very truly—Earl Cliff, advertising manager for Safeway Stores.

★ ONE OF THE compensations for having a cheery disposition is its effect on those about you. Jack Crawford puts it in these well selected words:

When a bit of sunshine hits ye
After passing of a cloud,
When a bit of laughter gits ye
And ye'r spine is feelin' proud,
Don't forget to up and fling it
At the soul that's feelin' blue,
For the minute that ye sling it
It will boomerang to you!

★ QUOTING DOC ANKLAM has almost become a habit with this column. However, we offer no apologies, because his stuff is a bit unusual. He writes in a little trade publication coming to our desk from a paper manufacturing concern. Again we quote from Doc...

There's nothing wrong in wanting to get ahead in life, but unlike driving, it's not good form to blow your horn when passing the fella in front.

A woman who makes a match for her daughter usually intends to referee it as well.

Most men are pessimists when they are making up their minds to buy—but they like to buy from an optimist.

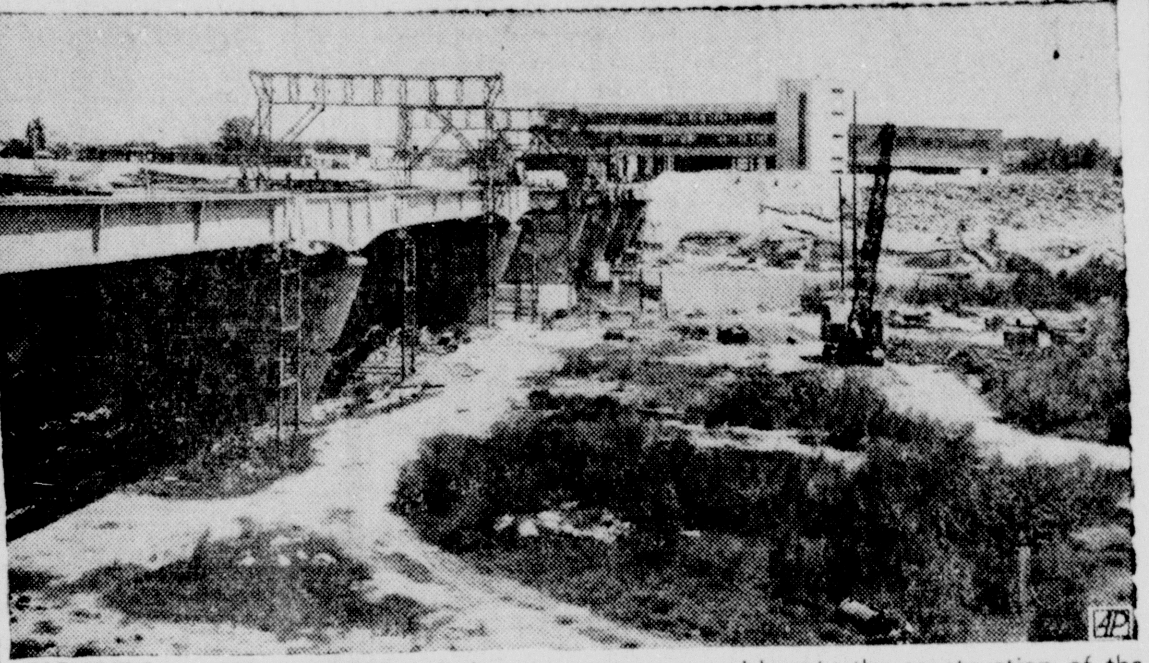

Ti Tolliver complains his wife has a terrible memory—she remembers everything.

Married men can't understand why all bachelors aren't rich.

If a man gets too big for his britches it usually is easy to fill his shoes.

★ SPREADING the spirit of happiness and good-will is one of the finest traits anyone can have. Captain Jack Crawford has made the sentiment rhyme like this...

When a bit of sunshine hits ye
After passing of a cloud,
When a bit of laughter gits ye
And ye'r spine is feelin' proud,
Don't forget to up and fling it
At the soul that's feelin' blue,
For the minute that ye sling it
It will boomerang to you!

BIG BRIDGE—LITTLE WATER—High water poses no problem in the construction of the new four-lane international bridge over the Rio Grande at Laredo-Nuevo Laredo. At the time this photo was taken the river reached its lowest flow of the year, only 63 gallons per second.

Absentee Voting Begins on One of Smallest Area Ballots

Referendum Vote On Three Subjects Also Scheduled

Voters of Jones County will have one of the shortest primary election ballots in several years, it was revealed last week-end by Jack Edwards, county Democratic committee chairman, as ballots were completed, and absentee voting began Monday.

Apparently little interest is being shown in any portion of the election as far as The Herald has been able to discern. Probably a little fire is being kindled in the governor's race, but even Ralph Yarborough's and W. Lee O'Daniel's tirades about corruption in Austin is not "cutting much mustard" this year.

Five state offices have no competition; three district offices have only one candidate; and three county office candidates will have no opponent. This trend is likewise carried out in the precinct offices, where only four of the offices show competition.

For the first time in many years the primary ballots will have a referendum vote on three very moot questions—mixing white and colored children in public schools; inter-marriage between negroes and whites; and interposition.

Date of the primary election, of course, is Saturday, July 28.

Mr. and Mrs. W. L. Fletcher Sr. Will Celebrate Sixty-Fifth Anniversary Here

Descendants of Mr. and Mrs. W. L. Fletcher Sr., long time residents of the Hamlin community, will observe a family reunion Sunday, July 15, at the oil mill guest house in Hamlin to celebrate the sixty-fifth wedding anniversary of the couple.

Mr. and Mrs. Fletcher are natives of Georgia, and attended school together at Bowden, Carroll County, Georgia. They were married in the home of her parents early Sunday morning, July 19, 1891. They came to Texas a short time thereafter and lived for a time at Hubbard. Later they moved to a farm near the old town of Armor (now Coolidge), where they lived until moving to the place where they now live. Coming to this county in 1908, they have been living on the same farm, where they reared a big family.

Fletcher has served his community and county in various ways. He was appointed county commissioner in 1909 to fill the unexpired term of J. D. McClaren.

Area Baptists Attend Quarterly Session Here

Representatives from churches of the North Colorado Baptist Association were in Hamlin for the quarterly session of the group, convening with the Sunset Baptist Church last Friday.

Supper was served to attendees by the host church, of which Rev. R. B. Hiner is pastor.

Donkey Baseball Tilt Slated Friday Night

Members of the Hamlin Volunteer Fire Department and young baseball players of the community will probably be secondary performers on the diamond Friday night at 8:00 o'clock in a baseball game that will be played on donkeys.

The game, being touted as a fun-filled, often spilled and hilarious athletic tussle will be played at the Piper Stadium baseball diamond under the lights. The public is invited to attend.

Proceeds from admission at the gate will go to the fire department's community fund, leaders of the department announce.

Methodist Young Folk Attending Assembly

Numbers of Hamlin area young people are in Abilene this week attending the annual youth assembly at McMurtry College of the Northwest Texas Conference. The assembly opened Monday and will continue through Saturday of this week.

Theme for the assembly is "For the Facing of This Hour." Assembly hymn is "God of Grace and God of Glory." Outstanding pastors, laymen and professors are on the program.

Rev. Darris L. Egger, pastor of Hamlin First Methodist Church, is dean of men for the assembly.

One Completion, One Wildcat Hold Area Oil Spotlight

Completion of small well south of Hamlin and staking of a wildcat nine miles east of Hamlin constitute the oil news of the Hamlin section of the past several days.

Miami Operating Company Inc. of Abilene No. 1 Alma Castleberry has been completed as a Cook Snad discovery in Jones County, six miles south of Hamlin, and about a mile west of Neinda. Location is in Subdivision 3, J. Rodriguez Survey 357. Daily potential was 11.85 barrels of 42-gravity oil, pumping from 50 perforations at 3,055-3,065 feet. Total depth was 5,636 feet with casing set at 4,793.

Nine miles east of Hamlin, the Texas Pacific Coal & Oil Company has staked its No. 1 J. M. Heidenheimer as a 3,300-foot rotary wildcat. Site is 330 feet from the south and 990 feet from the west lines of Section 93, B. B. & C. Railway Company Survey.

Frederick, Oklahoma, To Lead in Revival at Dovie Union Church

Rev. James A. Gray of Frederick, Oklahoma, will be the evangelist in a series of revival services beginning Friday night at the Dovie church, five miles east of Hamlin on the Stamford highway, it is announced by Rev. S. J. King, pastor.

"This is an old time union community so feel free to come and worship God with us," declares Rev. King. "Meet your neighbors and friends at this friendly little church."

Services will be conducted each evening at 8:00 o'clock, and they will continue through Sunday, July 22.

Rev. King also announces Sunday School Sunday morning at 9:45, preaching at 11:00 o'clock and singing Sunday afternoon at 2:00 o'clock.

100,000th INDUCTEE—Edward Thomas Murphy Jr. of Sherman, is officially inducted into the U. S. Army in Dallas by Colonel Morris S. Schwartz (left), state director of Selective Service, thereby becoming the 100,000th draftee from Texas since the outbreak of the Korean conflict in 1950.

Cotton Farmers See Some Relief with New Provisions of Soil Bank Program

Cotton farmers of the Hamlin section, many of whom are faced with complete failure this year due to the drought, saw considerable relief this week from utter revenue failures by compliance with the new soil bank program that is being implemented.

Ruling that payments may be earned for under-planting cotton because of adverse weather conditions relieved earlier fears that they might not be able to qualify simply because they had been unable to plant because of drought or because prospects for complete failure of the crops that were planted.

Soil bank acreage reserve agreements are now available for signature in county Agricultural Stabilization Committee offices. Anson, R. G. Schrauner, chairman of the state ASC committee, has announced. Farmers may obtain full information there on how they may participate in the acreage

reserve part of the soil bank this year.

"The acreage reserve is the first part of the program to get into operation for 1956," the chairman explained. "While farmers may sign an agreement any time before July 20, those who want to participate in the program should call at the office soon. Ask about the last date for plowing or discing a cotton crop in order to reduce the acreage below the farm allotment."

Besides permitting farmers to incorporate into the soil, by plowing or discing an acreage of cotton within the allotment, the 1956 acreage reserve contains several other special provisions which enable farmers to take part in the program this year.

Thus, a farmer may earn a payment for under-planting cotton if he can certify that he under-planted either in anticipation of complying with the program, or because of adverse weather conditions and if he designates an equivalent acreage in the acreage reserve; or the farmer may comply with his farm allotment for cotton and earn a payment if he does not harvest an acreage of the crop because of destruction by natural causes. Land placed in the acreage reserve must not be cropped, cut for hay or grazed during 1956. Noxious weeds must also be controlled.

Payments on cotton acreage designated for participation in the acreage reserve will be based on 15 cents per pound on either the normal or appraised yield—depending on how the land qualifies under the program, but not less than \$6 per acre for destruction due to natural causes or for plowing or cutting the cotton crop.

In order to participate in the acreage reserve of the soil bank a farmer must generally comply with all allotments established for his farm.

BIG MELON—Eight-year-old Irma Meneses of San Antonio, casts a hungry look at the melon on the vine in her back yard. Her father, Thomas Meneses, estimates its weight between 75 and 100 pounds and is almost sure it is one of the largest watermelons in Texas.

Stability Reflected In Bank Statement

Things must not be so bad, in the Hamlin territory if the official bank statement of the Farmers & Merchants National Bank is to be taken as a reflection of conditions.

Deposits in this northwest Jones County metropolis showed

to be almost quarter of a million dollars more on June 30 than they were a year ago. Deposits on June 30, 1956, were \$442,263.63 compared with \$418,734.10 recorded in the official statement of the bank of June 30, 1955.

Loans, another barometer of the financial stability of a community, also were down in the 1956 statement. They totaled \$1,539,029.33 compared with the total of \$1,589,698.03 a year ago. But the loans were greater than those of \$1,489,225.97 in the last statement of April 10, 1956.

Deposits likewise were down a little from the April 10 statement, when they totaled \$458,662.16. Incidentally, deposits of five years ago were listed at \$4,670,066.03.

Quick assets of the Hamlin bank in the June 30, 1956, statement, included U. S. government bonds of \$1,027,518.77; CCC loans of \$748,332.45; and cash on hand and due from banks of \$1,033,302.

On the liability side, capital and surplus are retained at \$200,000. Undivided profits were listed at \$149,288.54, and reserves showed at \$6,958.55.

Balancing Votes In Two Boxes Will Be Result of Move

Change of from 50 to 75 votes from the West Hamlin box to the East Hamlin box will be effected in the altering of boundary lines of the two voting precincts, authorized this week by the Jones County Commissioners Court, according to County Judge H. G. (Pete) Andrews.

The change in voting will be effective on August 1, after the primary election, Andrews said.

The change is being made, Andrews explains, to equalize the number of votes being cast in each voting box. Hamlin's population has grown to the west, and the West Hamlin box has gotten larger than the East Hamlin box.

The altering of the boundaries of the two voting precincts has been under consideration for several months, following the urging of voting officials in each box that the boxes be more nearly balanced as far as the voting strength is concerned.

Publication of the official notice of the change, giving the technical description of the metes and bounds is being made on an inside page of today's Herald, as prepared by the Commissioners Court.

Probably for a more understandable description of the boundaries, it is simply this: People living south of the Santa Fe Railway and east of Central Avenue will after August 1 vote in the East Hamlin box. Those living west north of the Santa Fe line west of Central Avenue and north of the Santa Fe railway will vote in the West Hamlin box. The east-west division line on Central Avenue runs north to the Stone-wall County line.

Heretofore, residents south of the Santa Fe and west of Highway 83 voted in the West Hamlin box as well as those living north of the Katy railway and west of the highway.

CURTAILMENT OF TRAIN MAIL SERVICE PROPOSED

Some concern continues to be felt by a very few citizens of this area for the mail service to the section. No doubt this lack of interest is due to the fact that many people are not aware of the seriousness of the situation.

Did you know the mail service by train into Hamlin and many other area localities is the next one slated for extinction? Did you know this division of the postal transportation service (formerly railway mail service) has been cut more than any other division in the entire United States?

The postal transportation officials have inspected this run from Altus, Oklahoma, to San Angelo, and it is their custom to survey any line they contemplate cutting. After its original inspection, now they have resurveyed this line and, while doing so, informed the various postmasters along the route that if this service were discontinued and the mail were hauled by contracted trucks, "they would receive as good or better service."

However, informed persons familiar with the handling of the mail for this region declare such a statement is not true.

It is impossible to make some of the connections the train makes, with en route distribution, as the truck must go to its terminal before the mail can be worked. And if it did leave the initial point of its run in time

to make close connections, it would require such an early start that some of the mail ordinarily picked up by the train would not even get out of your local post office on that day.

The schedule of these trains which officials propose to remove from service in our locality is such that most of the towns in North and Central Texas now receive the highest type of mail service—that is, a late evening pickup and an early morning delivery.

Pretext for this cut, under the guise of economy, originates from the same source that finds plenty of money to fly three-cent mail between the larger cities. It is for that reason this committee believes your service should not be made to suffer in order to foot the bill for someone else's better service only because of their more fortunate location with respect to air fields.

The plans to remove this important service in your locality has advanced to such an extent that only you, the public, concerned in this matter can save the service. But it will cost you a two-cent postal card or the price of a letter to your congressman or the Post Office Department, Washington, D. C. Or, better still, write them both and let them know you feel your three-cent stamp should buy as much as most other Americans get for theirs.

Pedestrians Hazards, Too

"Many pedestrians on our streets today are a constant hazard to themselves and others by their reckless disregard of traffic laws!" This view was expressed by E. C. McFadden of Dallas, president of the Texas Safety Association, Inc., in his discussion of the know-and-obey-traffic-laws program which the Texas Safety Association and the Department of Public Safety are conducting in cooperation with the National Safety Council.

"How many of us can plead 'Not Guilty' to sneaking across a street on a red light, or jaywalking, or to doing any of the other extremely hazardous things which spell disaster to so many pedestrians in traffic each year?" McFadden asked.

Emphasizing that traffic laws were made for the protection of both pedestrian and motorist, McFadden said that statistics indicated that many traffic accidents are caused by reckless pedestrian walking habits and an indifference to the necessity of obeying traffic laws at all times.

"Traffic signals represent the expert thinking of engineers and safety authorities, and are used for the protection of both motorist and pedestrian," McFadden said.

"When we disobey traffic laws, whether motorist or pedestrian, we're cheating ourselves as well as others," he declared. "It might be fun to fool yourself at solitaire—but don't try the same thing in modern traffic. It might be fatal!"

Share the Road

Have you ever stopped for a moment and thought of the fellow next to you? That man might be the one who works next to you or your next door neighbor, or he could be the fellow who sits next to you at your church or your service club luncheon. It is possible that the fellow next to you is a friend who would like to share with you the joys of living; one who would like to work with you and in general share with you the roads of every-day living.

Learn to know your neighbor and develop that friendship and fellowship which can be such a useful and priceless possession in the busy world of today.

Let's stop and think, then really meet that man—and chances are he, too, longs to share the road.

Civic Responsibility

All of us have civic responsibilities whether we recognize them and discharge them or not.

Take our average service club, like the Rotary or Lions Club, for example: They are not merely dues-collecting organizations. We derive no great benefit from the payment of dues, and we are not interested in bringing in new members just to be button-wearers.

A service club has room only for men who are sufficiently interested in the organization to carry their part of the club's work. When a man is chosen to become a service club member he should regard the choice as an honor only if he is willing to accept the responsibility that goes with it.

Editorial of the Week

"PEPPER AND SALT" SCHOOLS

Alabama is trying a "pepper and salt" plan of school enrollment as a solution to the problem of desegregation. It appears to have considerable merit. Under this plan, there would be three kinds of schools: (1) white schools for children who want them; (2) colored school for children who want them; and (3) mixed schools—"the pepper and salt" kind.

There are some white parents who are not seriously concerned about their children going to schools with negro children. And there is probably an equally small number of colored parents who prefer mixed schools. "Pepper and salt" schools with both white and colored pupils would be available to those who want them. But the great majority of both white and colored children would continue to attend all-white and all-colored schools, as at present.

The great merit of this plan is that it does not separate school children by state action on a basis of race. It leaves the question in the hands of parents, who know better what is good for their children than the Supreme Court of the United States.

Unfortunately, the plan does not seem to be well adapted to small town and rural areas, where it would not be practicable to provide three types of schools. But the mere suggestion of the plan does indicate that many minds are at work attempting to solve this problem on a basis of fairness and a decent regard for the rights and privileges of both races.—The Progressive Farmer.

Farmers of Fisher County Using FHA For Needed Funds

Farmers in Fisher County obtained loans totaling \$328,205 through the Farmers Home Administration during the year ending June 30, 1956, John D. Wolf Jr., the agency's county supervisor, said this week.

Repayments on loans outstanding during the year totaled \$495,993.94.

The agency has advanced equipment, livestock and other farm operating items needed to place farms on an efficient operating basis, and to buy and improve family type farms. It also advanced funds for soil and water conservation purposes and to meet drought emergency needs.

The local Farmers Home Administration committee must approve each loan application before funds can be advanced. The committee determines all loan applicants' eligibility and certifies the value of farms to be purchased or improved if those actions are involved. It also makes recommendations on loan approvals and servicing actions.

Applicants are approved as eligible only if other lenders cannot adequately supply their credit needs and only if prospects are favorable for their being able to improve their farming and repay their loans.

Families are expected to refinance their loans with other lenders as soon as they are in position to do so.

The Campaign Is Now Underway

Between now and July 28th, there is going to be a lot of conversation, speech making, and just plain political humbug. Some people are going to be talking to you and when they get through you won't know anyone more than before they started. There will be a lot of hand-shaking. It is pretty obvious that at election time handshaking is done for only one purpose—to get your vote. There will be much talk about team play, worthiness of the candidate, sneers, etc. Just remember this, friends. There is only one real team and that is the people of the 17th Congressional District. You are going to choose your own captain this year—a real honest-down-to-earth spokesman for the people of the district.

So many representatives first go to Washington with good intentions. After a year or two in office they forget why the people sent them there. The boys in the back room get hold of them and make politicians out of them, instead of statesmen. They listen to intellectual do-gooders, statisticians, "one worlders," and become so indoctrinated that all of the common folk back home are no longer represented. The power of the Federal government and the politicians are making the common folk into a pawn to be used in the collective bargaining of trying to reach a one world goal supported by American blood and American money, all at the expense of Mr. and Mrs. Average American with absolutely no contribution from the rest of the world.

Who are my campaign managers? All of us. You the voters will support me and I will, in turn, support you on the floor of Congress. All of this fancy speech making and political gabbydook that you hear between now and July 28th may be just so much conversation. Remember that! And rest assured that I will carry the sentiments of all of us, the people, of the 17th Congressional District to Washington.

We have done a lot of talking and complaining in the barber shop, in the cotton fields, in the peanut patch, on the cattle ranch, in the living room, in the drug store, in the grocery store, in small groups, and elsewhere. Now I stand before you ready to try to do something. We will have to put up or shut up at the polls on July 28th.

We can be an inspiration. We can set an example for all the common folk throughout our country by voting in such overwhelming majority at the July 28th Primary that other districts throughout the country, in near future elections will have the courage, the bravery, and spirit of our founding fathers to adopt similar platforms and bring the common folk into a pawn to be used in the collective bargaining of trying to reach a one world goal supported by American blood and American money, all at the expense of Mr. and Mrs. Average American with absolutely no contribution from the rest of the world.

Our voice in the wilderness springing from the 17th Congressional District of Texas can and will be heard. Our team can play a winning game, and adopting our platform in such overwhelming majority will bring respect and notice from our fellow Americans. We must start somewhere and we can start right here, now, in our own district.

It is obvious that I cannot shake each of your hands and talk to each of you. If I spent a half hour with each of you, I would spend approximately four years day and night without sleeping or eating. But I will get my message across to all of you somehow during this campaign. My heart and soul are in this and you, my friends, are one big team with me. We are all in this together and we will stick together. This campaign will be the most unusual in the history of the country, because we the people are going to do our own thinking this time and our own voting and our own campaigning. I am gratified for the hundreds of telephone calls and letters and offers of assistance from all of you, from the working men to many of the established democratic leaders in the district. I will see all of you that I can and remember I am always ready to consider your valued advice and recommendations. This is your campaign and your government. This is your opportunity to speak out. God bless each and everyone of you.

Most Classes of Cattle and Calves Move at Steady Prices at Fort Worth Monday

Most classes of cattle and calves were sold in a fairly active trade at steady prices at Fort Worth, says Ted Conley, special market reporter for The Herald in his weekly release. He continues:

Shippers, independent packers and order buyers were aggressive buyers from the outset, and despite lower offers from some of the major packers, the early trade was steady. However, later in the day weakness prevailed on cows and averages for the day on slaughter cows were steady to 50 cents lower, with fat cows showing the most weakness.

Stocker and feeder trade was fairly active and generally steady with last week's close, and again there was more activity on the higher quality kinds and on fleshy feeder steers and yearlings. Some fleshy feeders were stronger in spots.

Hogs scored advances of 25 to 75 cents, and choice butcher hogs topped at \$16.25 to \$16.75, mostly \$16.50 to \$16.75. Less desirable weights and grades moved at \$12 to \$16. Sows cashed at \$10 to

\$14, or steady to 50 cents higher than at the close last week.

Trade was active and prices were fully steady to unevenly higher on sheep and lambs. Slaughter lambs and yearlings drew strong to \$1 higher price in spots. Spring lambs topped at \$22, and yearlings topped at \$17. Feeder lambs sold from \$15 down.

Good and choice slaughter steer and yearlings cashed at \$16 to \$21.50, and common and medium offerings cleared at \$10 to \$15.50. Slaughter heifers sold from \$20 downward, some at that figure sorted off steer yearlings that brought \$21.50.

Fat cows cleared at \$9.50 to \$12, and canners and cutters drew \$6.50 to \$9.50. Bulls sold for \$10 to \$13.50, a few outside that range.

Good and choice slaughter calves cashed at \$14 to \$17, a few heavies above that range. Common and medium butcher calves sold for \$10 to \$13.50, and rannies sold from \$8 to \$10.

Good and choice stocker steer calves cleared at \$15.50 to \$17.50, and stocker and feeder steers and steer yearlings of good grades sold mostly from \$15 to \$16.50, a few to \$17. Plain and common stockers sold from \$10 to \$13.

Good and choice slaughter spring lambs ranged from \$17 to \$22, and cull, common and medium springers sold from \$10 to \$16. Stocker and feeder lambs sold from \$12 to \$15.

Good slaughter yearlings sold from \$15 to \$16, and some choice yearlings reached \$17. Cull to medium yearling muttons sold from \$8 to \$14. Slaughter ewes cashed at \$4.50 to \$5. Old bucks sold around \$4.

Democratic Ticket

WHAT CANDIDATE WILL WIN?

Political candidates win for the following reasons:

1. The winning candidate has the better platform.
2. The losing candidate has been in office too long with too little accomplished for the people he is supposed to be representing, or he may have never been in office but also does not have a winning platform.

There is one politicians' tactic that all the people should know about. This method of campaigning has been often used by desperate politicians who cannot win by any other method. These politicians have little to offer in the way of a platform and their only recourse is to try to draw voter's attention away from the opposing candidate's platform by attempting to create a duel between personalities. Their weapons are character assassination, prejudices, inferences, and falsely creating a completely untrue or misleading picture of what the opposing candidate has said or done in the past or now.

In the heat of such animosities, both candidates soon forget why they are running for public office and their only concern is to tear each other's heart out, to stir up confusion, cause hard feelings, and in general, bring into disgrace this God given right which allows free Americans to run for public office.

I do not believe my opponent and I want to conduct a "mud slinging" character assassination campaign. We have all we can do to state our viewpoints and I for one will have all I can do to stick to my platform and give the people of the 17th Congressional District a solid, firm platform. All the people will know exactly where I stand on any issue.

This campaign can be refreshing, enlightening, and conducted in the atmosphere of true statesmanship instead of "political skull idgery." We can make this a clean campaign with the issues clear cut. The people of the 17th Congressional District are interested in only one thing. What will the candidate try to accomplish in Washington?

Prewitt Motors Takes Part in Big Plymouth License Plate Contest

License plate on the car of someone in this community could be "worth its weight in gold," declared Gene Prewitt of Prewitt Motor Company, Chrysler and Plymouth dealer of Hamlin.

Prewitt said his dealership is participating in the solid gold license plate jackpot contest, being sponsored by the Plymouth division of Chrysler Corporation.

A grand prize of \$50,000, plus 445 other cash prizes are being offered. The contest began May 25 and will run through July 14.

All car owners, regardless of their automobile's make, model or year are eligible to enter.

In addition to the \$50,000 grand prize and a \$10,000 second prize, a third prize of \$5,000 and a \$1,000 fourth prize are being offered in the jackpot contest, which offers a total of \$100,000 in prize money.

To enter car owners need only visit a Plymouth dealership, produce proof of car ownership, register their state license plate number on the entry blank, and complete the remainder of the form.

WAKE UP, MAN!

An ardent fisherman was telling another fisherman about a wonderful dream he'd had:

"I dreamed I was out on Lake Arrowhead, alone with Marilyn Monroe."

"What a dream," said the other.

"How'd it turn out?"

"Just simply wonderful. I caught an eight-pound bass!"

Skating Party Planned For Baptist Fellowship

Saturday night's fellowship get-together for young people of the community being sponsored by the First Baptist Church will be in the form of a skating party. It is announced by Ed Wiggins, educational director of the local church. All young people of the community are invited.

The group will assemble at the church at 7:00 o'clock, and transportation to the skating rink at Leeders will be provided. An adult will be in every car, it is announced.

The young people are advised that they will need to furnish their own skates and admission price to the rink.

SURE WAY OUT.

Two hunters had been out in the woods for several hours and one of them had been growing uneasy. Finally panic overcame him.

"We're lost!" he cried to his companion. "What on earth are we going to do?"

"Take it easy," said his composed friend. "Shoot an extra deer and the game warden will be here in a minute and a half."

Walker on Committee To Name Trustees for Hardin-Simmons U.

Rev. Houston Walker, until recently pastor of the Hamlin First Baptist Church, will help nominate new trustees for the Hardin-Simmons University at Abilene this fall when the Baptist General Convention of Texas holds its annual session at Corpus Christi, denomination leaders at Dallas said last week-end.

Walker has just been named a member of the nominating committee by Convention President J. Ralph Grant of Lubbock. Other members include Rev. Levi C. Palmer, pastor of the First Church of Monahans; Rev. Henry Chambers, pastor of First Church, Comanche; Rev. Philip McGahey, pastor of College Heights at San Angelo and Ben Brock, a layman from Sweetwater and a member of the First Baptist Church there.

The BGCT, which includes 3,704 churches and 1,490,000 members, owns and operates nine colleges and universities over the state, with an enrollment of 14,291 students for the 1955 fall term.

THAT'S CHEAPER.

An eight-year-old boy, visiting a neighbor, was asked how many children there were in his family.

"Nine," he answered.

The neighbor observed that so many children must cost a lot of money.

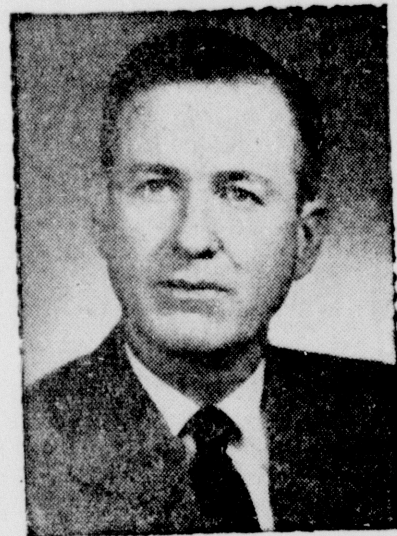

"Oh, no," the child replied, "we don't buy them—we raise them."

TOAST POUND CAKE.
Toast slices of ready bought pound cake and serve with fresh fruit and whipped cream for a quick dessert.

The first battle of the Mexican War took place at Palo Alto, Texas, in 1836, between General Zachary Taylor and General Arista.

Spoon a layer of custard into a baked tart shell; add a peach half, cavity side down. Melt some current jelly and pour it over the peach to form a pretty glaze.

Adding acid ingredients such as olives, pickles, lemon juice, catsup and chili sauce to salad type sandwich fillings increases the keeping quality of the spread.

Refund of Federal Gas Tax to Farmers Now Being Tabbed

Hamlin area farmers may obtain a refund of the federal excise tax on gasoline which is used for farming purposes by filing a claim at any time after June 30 and before October 1, 1956. A. E. Fogle Jr., administrative officer of the Abilene office of the Internal Revenue Service, announced in a release to The Herald.

Claims for the present federal tax rate of two cents a gallon are to be made on Form 2240 and should be filed with the U. S. district director of internal revenue for the farmer's district. Forms are available at Abilene at the internal revenue office, from county agricultural agents, and at some banks and post offices.

Initial refund payments will concern gasoline purchased and used during the first six months of 1956, according to Fogle. Refunds will be limited to federal tax on gasoline which is used by a farmer for farming purposes, in carrying on a trade or business on a farm located in the USA. A farmer may also request a refund of the tax on any gasoline which is used on his farm by a

custom operator or a neighbor in connection with cultivating the soil or raising or harvesting any agricultural or horticultural commodity.

Fogle cautions, "Farmers expecting to file claims should keep ample records to enable internal revenue to verify accuracy of the amount claimed."

I AM THE CHURCH

They pause in the road of life and gaze at ME. And their feelings are a mixture of longing and hesitation. What shall I say to their longing... to their hesitation? I am the Church. I come not from man but from God. Man raised his steeple to the sky, a prayer of steel. But God opened my doors to the reverent. He lifted the Cross of His Son to beckon men. He engraved His message on the hearts of my people. I am the Church. They long for me because I teach truth and awaken faith... because hope and courage and strength and happiness are promises I make to those who heed me. I am the Church. They hesitate as they approach me. For they say, "How can we be sure your Truth is true—your Faith believable—your Promises certain?" I am the Church. That is why men can be sure! I come not from man but from God. Men may toy with the truth, but not God. Men may break faith, but not God. Men may forget their promises, but not God. I am the Church. I belong to you... to your family... to your nation and your world. Do you belong to me?

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Duncan Reviews Highlights of Lions Clubs Convention

President Edgar Duncan gave some highlights of his recent attendance at the Lions International convention at Miami, Florida, as the program feature at the Tuesday noon luncheon of Hamlin Lions Club at the oil mill guest house.

Duncan took his family to the annual session, and they drove through several Southern states and visited along the way.

Duncan reported that, as usual,

the Texas delegation was the biggest group attending the convention, and armed with big pistols shooting blank cartridges, they made themselves known. Probably the highlight of the meeting, Duncan said, was the two-hour parade. More than 45,600 Lions and their families attended the convention.

In business sessions of the convention it was reported that more

than 1,000 new Lions Clubs were organized during the past year. There are now clubs in 79 countries, with membership standing at 542,828, Duncan reported.

Duncan attended a presidents' dinner which was attended by 1,200 club heads.

Guests at the Tuesday luncheon included Captain Burleson, Frank Bayouth, Jerry Wallace and Carl Murrell.

Your Home Business Firms are THE HIGHEST BIDDERS for Your Shopping Dollar

Here are the facts to prove it...

Actually . . . no matter where you live . . . nobody . . . and that means NOBODY . . . can give you more for your dollar than your own home business firms. Let's look at the reason for this advantageous . . . to you . . . situation:

ANY MERCHANT . . . anywhere . . . is ordinarily going to sell goods for some more than he pays for them.

ON AN AVERAGE . . . when you spend a dollar in any retail store . . . here or anywhere else . . . about 70 cents of it pays for GOODS, and about 30 cents goes for rent, taxes, donations, hired help, etc., and a few cents (the national average is about 5 cents) pays the proprietor for his work, and for his investment in goods and equipment, credit losses, etc.

NOW . . . when you spend your dollar at home, you get the same 70 cents worth of merchandise that you would get for it anywhere else.

AND THE OTHER 30 CENTS stays here too, to help you pay for schools, churches, roads and streets; to vitalize the community so your property . . . or your job . . . is worth more; to keep more people here to share civic work and expense, and to serve YOU when you sometimes direly need their knowledge and their skills.

ONLY when you buy in YOUR OWN HOME community do you get back most of this 30-cent retail handling charge . . . and often a great deal more, as your job or your business prospers and your social life broadens with the growth of the entire community.

It Pays to Buy where You Live

Of all the business establishments in the world — only those in Hamlin are sincerely interested in the future of Hamlin and in the future of YOU who live here . . .
